### 2020 Year End Report

2020 was a difficult and trying year for the City of Wauseon due to the Covid-19 pandemic. First and far most, I would like to thank the City Department Heads for cutting 20% from their 2020 Budget to help with the revenue loss due to the pandemic. I would also like to thank all city employees for enacting and participating in the mandated stay at home orders brought down by the State of Ohio Health Director and Governor Dewine, along with many other mandates we were ordered to follow. Many of our employees were forced to work from home while other Public Safety employees were required to work longer or split shift hours for many months.

I also wish to thank all of the citizens who patiently complied with the new options and format to our city business while the city building was closed during the pandemic.

The Wauseon Police Department handled 11,785 calls of service. This was a large increase from the 8,003 calls of service handled in 2019. This was due to an increase of property patrols and business checks due to the pandemic. The Detective handled 117 reports in 2020 and our School Resource Officers handled 39 school investigations.

The Water Treatment Plant treated 286.045 million gallons of water with a daily production of 781,000 gallons.

I would like to thank Keith Torbet; Director of Public Service and Tom Burkholder; Swimming Pool Supervisor for working together with the Fulton County Health Department to make sure all mandates were met in order to open the swimming pool for its third season. 2020 was a busy year and we sold 117 season passes and had 20 pool rental reservations.

The Finance Department reported the City's financial position at the end of the year is \$425,996 more than the beginning of the year. The increase is due to a \$314,043 dividend payment received from the Ohio Bureau of Workers' Compensation.

The Zoning Department issued fifty-nine zoning permits during 2020. There were fifty-one (51) Maintenance Code violations/complaints received and handled.

The Wauseon Fire Department responded to 1,726 emergency medical services in 2020, 100 less calls for service than the previous year due to the Covid-19 pandemic that hit our nation.

I would like to thank City Council, Department Heads, and all City employees for their professionalism and dedication during this difficult and trying year.

Sincerely yours,

Kathy Huner Kathy Huner, Mayor **Mayor** Kathy Huner

March 1, 2021

Honorable Kathy Huner Mayor of the City of Wauseon 230 Clinton Street Wauseon, Ohio 43567

Re: 2020 Annual Report

Dear Mayor Huner,

I am pleased to present the 2020 year-end report for the Finance Department. Department is responsible for receipting all funds received by the City, safeguarding the same while in the Treasury and preparing disbursements in accordance with the Ohio Revised Code, the City Code of Ordinances and the budget approved by City Council. It is also responsible for maintaining an accounting system that is capable of creating financial records and reports for internal use and for the other departments, boards and commissions of the City. Although these records are kept on a "cash" basis throughout the year, the Finance Department is required, by the Auditor of State, to convert the year-end financial statements to a "modified accrual" basis (GAAP). Both the cash basis and GAAP reports are audited annually by the Auditor of State's Office. The City's most recent audit report, for 2019, revealed three findings of noncompliance and material weaknesses. The weaknesses were in reference to the improper transfer of revenue from the Capital Income Tax Fund to the General Fund. The auditor cited the city as being deficient in Ohio Rev. Codes 5705.14, 5705.15, and 5705.16. The reversal of the transfer also caused noncompliance of Ohio Rev. Code 5705.39 because the city's appropriations exceeded the amount certified by the budget commission. Lastly, the auditor cited the city with noncompliance of Ohio Rev. Code 5705.10(I) because of the deficient balance in the general fund it appears that the city used another fund to cover those expenses. Since the release of the audit report the city has obtained approval from the state income tax commissioner to transfer finds from the Income Tax Capital Fund into the General Fund. All funds have a positive balance and there are sufficient funds to cover all appropriations.

The Finance Department is responsible for preparing the estimate of revenues, the annual appropriation ordinance and any related resolutions necessary to amend the appropriations throughout the year. After approval by Council, these are all filed with the Fulton County Auditor. The Department also assists the Mayor in the preparation of the City Budget for the coming year. With the cooperation of the various Department Heads, the Mayor and City Council, the budget for the year 2021 was prepared and approved prior to the end of 2020.

In total, the City's sixteen different funds received \$11,669,039 and disbursed \$11,243,043 during 2020. The total cash balance, of all funds, was \$6,750,849 at December 31<sup>st</sup>, of which \$505,929 was encumbered. The attached year-to-date fund report shows the unencumbered cash balances for each fund. These amounts were carried over to, and are available for year 2021 appropriations.

The major source of operating revenue is the City income tax. Gross tax receipts, less refunds, were \$3,784,819 in 2020 compared to \$3,940,402 in 2019 and \$4,117,713 in 2018. A five-year comparison of income tax receipts is attached for your review. The gross income tax receipts had been allocated 75% to the General Fund and 25% to the Capital Projects Fund beginning in 2012, however due to the another 3.95% decrease in tax revenue the City Council agreed to begin allocating 100% of the Income Tax Revenue to the General Fund in November of 2020. The Income Tax Revenue did not have a significant decrease until April of 2020 due to the effects of the Coronavirus. Federal funding for coronavirus relief considerably helped the deficit from Income Tax receipts.

The City received a total of \$524,297 in coronavirus grant funding. The city mostly used the grant funding to help pay the payroll and benefits of our safety employees. We also purchased personal protective equipment and additional uniforms. The grant was also used to cover the additional costs of working remotely and purchasing touch-less doors and locks. A complete list of the coronavirus grant funding uses is attached for your review.

The City's Enterprise Funds consist of water revenue, water reclamation revenue and wastewater debt. Each of these funds is to be self-supporting and the related revenues and expenditures of these funds are recorded individually. The annual activity for 2020 and the unencumbered cash balances of the Enterprise Funds are also reported on the attached fund report. The wastewater debt fund was reactivated during 2010 to pay debt incurred from the Water Reclamation Plant improvements.

The two other sources of debt that the City is obligated to are recorded in the Debt Reduction Fund, previously the Capital Projects Fund and Water Revenue Fund. The City borrowed \$5 million for the renovation and extension of Glenwood Street. The outstanding debt on that project was bonded out during 2011 and will be paid off over an eighteen year period.

During 2006, the debt incurred for the renovation of the Water Treatment Plant was combined with the remaining debt from the construction of the waterline from Wauseon to Napoleon. The outstanding debt on those two projects is now \$245,000. Additionally, in November of 2015 the residents of Wauseon voted in favor of a 2.6 Millage Parks and Recreation Levy. In turn the City borrowed \$1.4 Million in the form of a 5 Year Bond in anticipation of building a new pool, which is included in the Debt Reduction Fund. The Pool Bond was paid-off during 2020.

The City's financial position at the end of the year is \$425,996 more than the beginning of the year. The increase is due to a \$314,043 dividend payment received from the Ohio Bureau of Workers' Compensation. While a slight increase in 2020 is a positive for the city, the coronavirus is still effecting the economy, which will once again cause expenses to be monitored closely throughout 2021 to ensure that they remain in line with the decline in tax revenue.

Sincerely,

Jamie L. Giguere

Director of Finance

The Honorable Kathy Huner Mayor of the City of Wauseon 230 Clinton Street Wauseon, Ohio 43567

Re: 2020 Annual Report

Dear Mayor Huner:

I am pleased to present the Law Department's 2020 Annual Report.

The Law Department was again busy this past year on civil matters. The Law Department prepared approximately forty pieces of legislation and provided advice on a broad variety of issues to you, Council, and each of the various departments throughout the year.

We were also busy with a number of projects in various areas. We assisted in the successful negotiation of the first union contract with the City's new Fire Department bargaining unit. The negotiating team was able to accommodate several concerns addressed by the employees while maintaining the overall costs associated with the employment of the members at a reasonable level. We provided legal assistance in several other personnel matters throughout the year, including the successful handling of several personnel grievances.

The Law Department spent a considerable amount of time this year working together with you and the Department Heads on numerous issues relating to the Covid-19 pandemic. This included navigating and providing advice on the myriad and ever-changing state and federal regulations issued in connection with the pandemic.

We were pleased to assist the City on several other matters. For example, we provided advice in the employee evaluation process and wage and benefit increase assessment. We also participated in discussions and provided legal guidance on the possible formation of a new fire

and ambulance district. As usual, the Law Department assisted in the preparation and/or review of several contracts and agreements on behalf of the City.

The Law Department worked on various amendments to the Codified Ordinances. Such amendments included the adoption of a new section establishing rules for the use of the pond at Rotary Park, and certain revisions to the City's tax code.

We assisted the Revolving Loan Fund Committee with review of loan packages for two RLF loans this past year, including two loans for small businesses in town.

Finally, we continue to serve on several committees, including the Revolving Loan Fund Committee and the Records Commission. We also provided legal assistance to various Cityrelated entities, including the Wauseon Recreation Association and the Wauseon Union Cemetery.

On the criminal side, we prosecuted cases on behalf of the Police Department, Finance Department, and County, for offenses arising within the City's limits. Our prosecutors continue to serve in an advisory capacity to the Police Department, frequently answering calls to address questions in real-time during all hours of the day.

Our office has reaffirmed our collaboration with the County Victim Advocate to ensure our victims have a voice and role in criminal prosecutions. Our office has also explored the utilization of diversion programs implemented by neighboring courts in an effort to reduce the rate of recidivism among certain offenders.

We recognize we are privileged to live in a safe community, and understand our role in prosecuting matters on behalf of the City is to preserve our citizens' safety through accountability by the fair and just application of our laws.

We appreciate the opportunity to serve as the City's attorneys and look forward, in the next year, to performing our duties to the high standards which you, Council, and the citizens of Wauseon expect and deserve.

Respectfully submitted,

Thomas A. McWatters III

City Law Director

# City of Wauseon DIVISION OF POLICE

KEVIN D. CHITTENDEN, CHIEF OF POLICE

### 2020 Annual Report

### Division of Police

The year 2020 was a challenging year for the Wauseon Police Department, as well for the City, State, and Country as a whole in dealing with the Covid-19 pandemic. The year started with the hiring of a new full-time officer, Ptlm Mike Oehlers. In 2020 we also hired Ptlm Richard Roe to replace Ptlm Madelyn Griffin, who left for another department. Full-time Dispatcher Chelsea Taft also left our department for another job. The year also saw the retirement of our K9, Pharoah, in May.

Due to the Covid-19 pandemic, Wauseon Police Department operations were changed drastically for the months of March-June. The stay-at-home orders and curfew also changed the types and numbers of calls for service that we handled. The following is a summary of activities handled by the Wauseon Police Department in 2020.

### **Calls for Service**

In total, the Wauseon Police Department handled 11,785 calls for service. This was a large increase from the 8,003 calls for service handled in 2019. This can mostly be attributed to a large increase in property patrols and business checks. Property damage traffic crashes were down 22% and injury crashes were down 44%, while the number of traffic stops went down 40% and citations down 50% from 2019. This is due in large part to the stay at home orders, curfew orders, and department procedure changes as a result of Covid-19. Most crimes saw a reduction in calls for service with a small increase in thefts and domestic complaints.

### **Detective Bureau**

The Detective handled 117 reports in 2020, a slight decrease from 123 in 2019. Of the cases handled by the Detective, 26 reports were sent to a prosecutor resulting in 23 charges being filed. There were also 6 juvenile cases handled by the Detective with 2 resulting in charges. The Detective conducted 16 background investigations and worked with departments from Cumberland County (NC), Santa Rosa County (FL), Maricopa (AZ), Fulton County Sheriff's, Fulton County Children Services, Henry County Sheriff's, Liberty Township (OH), as well as the FBI. The Detective did not do any community outreach programs due to Covid-19 restrictions.

### School Resource Officer

In 2020 the School Resource Officer (SRO) handled 39 school investigations, 16 police investigations resulting in 5 criminal charges being filed, and 1 school bus violation. Due to the 19-20 school year being stopped for in-person learning in March, the SRO was reassigned to road patrol duty. Unfortunately, programs such as DARE and the Youth Police Academy had to be cancelled for 2020.

### Special Investigations Unit (SIU)

Most SIU drug investigations were suspended due to Covid-19. However, the SIU did still handle 21 calls for service relating to drug crimes with 3 cases being sent to prosecutors for charges. The Wauseon Police Department responded to 16 calls for drug overdoses in 2020. Five overdose victims were able to be saved by our officers by the administration of Narcan.

### Zoning<sup>®</sup>

In 2020, there were 12 complaints of junk vehicles, 8 trash/rubbish, and 2 tall grass that were handled by the zoning officer in conjunction with the City of Wauseon's Administrative Secretary. Most complaints were resolved with one case being sent to the prosecutor.

### К9

K9 Pharoah retired in May of 2020 after 8 ½ years of service to the City of Wauseon. Prior to retirement, Pharoah assisted in a search of Delta schools, along with continuing his training up until his retirement date.

### Polygraph

Like many other things, the use of the polygraph was paused for some time during 2020 due to Covid-19. There were however 29 polygraphs scheduled, including assists for the following departments: Delta PD, Swanton PD, Fulton County SO, State Fire Marshall, Lenawee County (MI) SO, Adrian (MI) PD, Blissfield (MI) PD, and Hudson (MI) PD.

### **Emergency Response Team (ERT)**

The ERT was called out on 1 occasion in 2020 to assist the Fulton County SO with a barricaded subject. The ERT training was minimal this year due to Covid-19 restrictions and cancellations but has been started back up during the last quarter of 2020.

### Miscellaneous

- 1- Although training was limited in 2020, all officers did receive updated training in the Use of Force as well as Election Day training.
- 2- Wauseon PD was awarded grants that allowed for a Victim Advocacy program to continue in Fulton County, which provides services to victims of domestic violence, stalking, and sexual assault. A grant was also received which allowed for the purchase of new and upgraded laptop computers for the officers and their patrol vehicles as well as the purchase of new ballistic vests.
- 3- WPD supported and participated in Safety City.

- 4- Participated in and received a donation from the Backing the Blue BBQ event that was sponsored by the Delta Eagles.
- 5- Continued to upgrade and expand the Public Safety Camera system in Wauseon.
- 6- Continued as bondsman for Western District Court.
- 7- Served Summons and subpoenas for county courts.
- 8- Purchased 2 new Dodge Durango Patrol vehicles
- 9- Sold old/unused city and police equipment on Govdeals for \$9,649, bringing the total amount to \$266,076.09 since the start of using Govdeals.

Respectfully Submitted,

Chief Kevin D. Chittenden

FEBRUARY 22

Director Of Public Service Keith C. Torbet

### **Year in Review 2020**

2020 was a very challenging year for not only the Public Service Department, but the City as well as the nation. The uncertainty of the COVID-19 virus, the freefall of the economy, and the concern for our ability to provide city services while still keeping our employees safe made for a very difficult year. I am proud to say that the professionalism and dedication of our public service employees was very evident throughout 2020.

The true back bone of the Public Service Department is the Superintendents that run the various departments for the city. Attached to this report you will find their end of year reports showcasing each department's accomplishments and work done for the city.

Some more notable areas of improvement within the city:

- Completed repairs on all tree damage sidewalks that had been reported to the city.
- Continued the process for engineering complete rebuild S. Brunell St. and surrounding area.
- The Water Reclamation plant treated 415.29 million gallons of waste water and had five minor violations for 2020.
- The Water Plant treated 286.045 million gallons of water in 2020 with an average daily production of 781,000 gallons.
- The swimming pool was opened for its third season despite some challenging circumstances. 117 season passes were sold which is a 10% increase over 2019. The pool was rented 20 out of the possible 30 Saturday party rental spots which is only a decrease of 3 from 2019 with one of those cancellations by out of state guests that were under travel restrictions.
- Installed a new Lime Slaker in the Water Plant.
- Rebuilt the dam on the Stuckey ditch for raw water service to the water treatment plant.
- Installed a boat ramp on the small reservoir.

- Installed one new fire hydrant and repaired 4 other hydrants.
- Installed 97 new computerized water meters.
- Cleaned 1312 ft. of sewer line as well as ran cameras through many other lines looking for problems and clogs.
- Replaced 1100 ft. of Storm sewer line south of Leggett and Brunell Sts. To help with flooding occurrences in that area.
- Built eight new dugout roofs at Biddle Park.
- Installed a concrete pad at Biddle Park for a batting cage at the north field complex.
- Repaired Wooden Train Set at Depot Park and added a box car to it.
- Did extensive work on the Wabash cannonball trail including building a new information Kiosk at Rotary Park.

The recreation program was hardest hit by the COVID-19 Pandemic. All spring and summer recreation programs had to be cancelled due to mandatory health orders. In July the recreation department held eight boys baseball clinics and 4 girls softball clinics with approximately 70 youth participating.

The fall and winter programs were able to be held under Department of Health mandated guidelines. There were 27 different programs held in the fall and winter with 490 youth participating. This represents a 29% decrease over the numbers in 2019.

### **Employees that Received new licenses:**

Noah Ganger – Class I Water License

### **Boards and Commissions that I currently serve on:**

- Fulton County Economic Development Executive Committee
- Fulton County Community Investment Corporation
- Fulton County Local Emergency Planning Committee
- Maumee Valley Planning Organization Board of Directors and Personnel committee.

- Represent the City at the Joint Solid Waste Management District Meetings
- Represent the City at the Tax Incentive Review Council
- Fulton County Regional Planning Committee
- Assessor/ Peer Counselor for the Ohio Collaborative administered by the Office of Criminal Justice Services
- Member of the OACP Advisory Services and Education Committees
- Member of the Executive Institute Committee overseeing the Police Executive Leadership College
- Member of the CLEE Board of Directors
- Vice President of the Center for Child and Family Advocacy Board of Directors.
- Member of the American Water Works Association
- Member of the Water Management Association of Ohio

I look forward to the coming year for a great year moving forward and working to make Wauseon a better place to live, work, and visit.

Sincerely,

Keith C. Torbet, CLEE
Director of Public Service

### 2020 PUBLIC WORKS YEAR END REPORT

### WATER LINES

- Replaced two (2) 4" valves at the corner of W. Leggett Street and Vine Street.
- We continued our EPA list of yearly main valve exercising to ensure proper working conditions for each valve. We started on Leggett Street moving north to Elm Street.
   We will continue in 2021 with the valve exercising going from Oak Street to Linfoot Street.
- Flush all hydrants annually; began on June 3 and it takes approximately 2 weeks to complete.
- Repaired 15 waterline breaks.
- Installed one (1) new fire hydrant and repaired four (4) fire hydrants.
- Filled twelve (12) swimming pools for residents as requested and used approximately 14,350 gallons of water.
- Read water meters monthly.
- Repaired and/or replaced water meters as needed when they do not read correctly each month.
- Filled the city swimming pool after we pumped it out and cleaned it. Began filling the pool on 05/11/2020 with the autofill system which ran through the weekend and was completely full by the end of the day on 05/15/2020.
- Updated all water valve books and curb stop locations books annually.
- Installed approximately 97 new computer speed read meters totaling approximately 3493.
- Run daily water slips for the water office.
- Flag all fire hydrants before winter months so they don't get covered in snow.
- Made seven (7) new water taps.
- Replaced two service lines from a leaking curb stop and replaced one (1) lead service line
- Made a 6" live tap on Krieger Street.

### SEWER LINES

- Cleaned 1,312' of sewer lines this past year.
- Televised several sanitary and storm lines for tap locations and issues.
- Made four (4) new sanitary sewer taps.
- Repaired one (1) plugged taps with roots or that was broken down.
- Installed approximately 1,100' of 36" storm tile from 273 W. Leggett Street south to the ditch. Started 12/07/2020 and was completed by 12/23/2020.
- Repaired storm tiles and basins that were causing a washout and/or not properly draining.
- Made five (5) new storm taps.
- Treated the pond on Enterprise Avenue and Rotary Park for algae.
- Inspected and televised 1,856' of sewer lines
- Inspect and maintain all pump stations weekly.

- Changed floats at Brenner's pump station as needed.
- Changed the pump at Brenner's pump station

### **PARKS**

- The Public Works Departments mows and maintains 160 acres of grass in the parks and bike trail during mowing season.
- Start up and run system to water Biddle Park during the season as needed.
- Repair leaks on the sprinkler system as well as replace sprinkler heads and valves as needed.
- Applied round up at the parks, city buildings and bike path for weed control.
- Clean and maintain all shelter houses yearly when rented which requires 2 hours of manpower per rental.
- Maintain and repair tennis courts, lights, nets and windscreens.
- Maintain and repair the basketball courts in each park.
- Pick up trash in all parks and shelter houses daily as needed.
- Pulled all old cracked concrete from around Biddle Park's main hub and dugouts and replaced with 18 yards of concrete.
- Poured a concrete pad for the new batting cages at Biddle Park.
- Built eight (8) new dugout roofs for the north baseball fields at Biddle Park.
- Clean and get the city pool ready to start up the season annually.
- Winterize the swimming pool and bathhouse at the end of the season.
- Repair the playground equipment as needed.

### GENERAL MAINTENANCE

- Pick up trash weekly downtown and at the city buildings.
- Maintain and replace the bulbs in all traffic lights.
- Asphalt roads for maintenance repairs.
- Repair and/or replace damaged posts and road signs.
- Pour concrete for sidewalks, driveways and curbs for maintenance repairs.
- Level and seed yards from repairs made throughout the year.
- Planted and replaced 20 new trees.
- Cut approximately 39 trees down, grounded stumps and filled with dirt and seeded.
- Pickup brush along the boulevard alternating weekly; north side 1<sup>st</sup> and 3<sup>rd</sup> weeks and the south side the 2<sup>nd</sup> and 4<sup>th</sup> weeks each month.
- Run leaf pickup in the fall during leaf season for approximately 8 weeks.
- Run street sweeper twice a week to sweep curbs and streets.
- Maintain and level stone in alleys in the spring and fall.
- Winter months we salt and plow the roads as needed.
- Haul snow piles from the downtown area after a heavy snowfall.
- Water and fertilize new trees planted throughout the summer.
- Push mow parking lots, Chamber building and the Welcome to Wauseon signs.

- Spray for mosquitos twice a week during the summer months.
- Paint street and parking lot lines around town.
- Mow and maintain ditches, roadways, rails to trails and retention ponds.
- Check and replace all lights in the Christmas decorations before putting up.
- Made repairs and repainted the wooden train set at the Depot Park.
- Built new box car to add to the Depot Train Set.
- Did maintenance repairs to the roof beams at the Miami Shelter House; wrapped the beams with new wood for support, then wrapped the support wood with cedar for a better appearance.
- Framed in and put steel sides on the open bay at the north end of the Waste Water Plant to help with the wind.
- Added more stone around the banks at the Rotary Park pond.
- Replaced and repainted the walk through door on the west side of the Chamber building.
- Did work on the Wabash Cannonball Trail; filled in all low spots with stone and rolled in to smooth it out. Put a top coat of asphalt grindings on top then compacted it for a smooth surface. This was done from the end of Dickman Road to County Road 22.

### Wauseon Water Plant

### 2020 Year in Review & Production Figures

### **Production Information**

Raw Service Meter for 2020:

286.045 million gallons

Water Sold/ accounted for in 2020:

233.132 million gallons

Average Daily Production for 2020 was 0.781 million gallons

Highest Daily Production was July 3rd at 1.089 million gallons.

Lowest Daily Production occurred on March 18th at 0.383 million gallons.

### 2020 At the Plant

-A 12" main break in Delta required us to open up the line interconnecting the communities. Delta's acting superintendent switched valves the wrong way at the Worthington water tower, preventing any Wauseon water from going their way to help. This is the same thing that was done that prevented us helping at the second Metal X fire.

-In March the City evokes quarantining to any personnel that are outside of Ohio. Two operators at the plant were gone on vacation at the time, requiring remaining staff to cover weekends and shifts for the two weeks. Co-Vid continued to be an issue throughout the rest of 2020, keeping the water plant closed to the public and requiring employees to take temperatures daily and cancel vacations.

-Due to the Co-Vid situation, a mutual aid agreement was drawn up for Wauseon, Napoleon, Archbold, and Defiance. Defiance was added to a pre-existing agreement for laboratory assistance if necessary, and helping with operator of record issues was also addressed in the new statement.

In May, the house situated in Reighard Park burnt down. Staff was notified, and kept abreast of the situation in case more water was needed. Fortunately, water use for the fire was not significant.

Rob Binkley and Ryan Zimmerman assisted the public works department with hydrant flushing in June.

Test equipment for harmful algae was offline in July, requiring us to have Archbold run tests for us. We had run tests for Archbold and the rest of area earlier in the year and also in 2019. A technician with the company was required to come out to repair microcystin test equipment.

Lead and copper triennial testing was completed in the distribution system in 2020. Over 20 homes were tested, with very low copper numbers, and all showing no detection on lead.

Public Works came out in August to replace concrete on dam in Stuckey Ditch. The dam had failed and fell over due to constant erosion. The water plant has begun using water from Stuckey ditch again now that the repairs have been made. Ben Johnston and his crew did a great job that was very appreciated.

A new lime slaker was installed by staff to replace one that was beginning to fail. The old one was originally installed in 1996. The plant staff installed the unit to save the city the \$30,000 installation cost. Both slakers have now been replaced.

Work was done to install a boat ramp into the small reservoir. It was built to be accessible from the front launch site. This will help with doing treatments to the reservoir by boat.

Divers came out in October to do required inspections of the clearwells, wetwell, and both reservoirs. This is a requirement of the EPA to have done periodically. Everything looked very good and went well.

Due to a leak that began in the west pump house in November, a local dive team was called in to do an emergency dive and try to install a plate over the water line that sends water from the west pump house into the big reservoir. A stand pipe that had fallen over many years ago damaged the concrete surface, but the dive team managed to get a decent seal even though fighting very cold temperatures. The leak was greatly slowed, and no longer is thought to be the damage to the reservoir. More work will be done in 2021 to make sure seal is holding and to investigate leaking valve.

High Nitrates in the Maumee caused Wauseon to switch valves so Napoleon could take a percentage of their water from the reservoir to lower high nitrate levels. This stayed in effect all of December. This is not typical and had not happened since around 2004. The only staff that was aware of the previous time it happened was Lou Thourot, and Lou notified Napoleon that it may last longer than they originally thought. This helped them to make plans to stay on line with Wauseon.

Noah Ganger passed his class I water license in 2020. This was his first attempt at taking the test, and we are very proud of his accomplishment. The water plant now has Noah with a class I, and Rob Binkley, Ryan Zimmerman, and Austin Abbott all with class IIs.

With the lock down in place, work was focused to plant improvements throughout 2020. Staff replaced all ceiling tiles, changed over most light fixtures to more energy efficient led bulbs, painted, replaced emergency and exit lighting, and performed other improvements.

Harmful algae blooms continued to be an issue at the water plant. Most of the second half of 2020 was spent drawing water from the little reservoir that seems to stay clearer of the difficult blooms. Treatment at the plant prevented any issues in the finished water.

Prepared by Lou Thourot,

Water Plant Superintendent

### PERMIT VIOLATIONS

There were five minor violations this year. Violation letters to EPA enclosed.

### **PLANT BYPASS**

The plant recorded three overflows in 2020.

### CAPITAL IMPROVEMENTS

Due to COVID, we held off on any capital improvements for the year.

### **PERSONNEL**

Sonny Crawford (class III), Kim Schantz (Class II), Vinny Bedsole (Class I) continue to work hard to keep the plant running smoothly.

### **PLANT**

Again, because of Covid, most projects were put on the back burner. We had some issues with low pH because of the lack of rainfall. We shut down one primary and one final clarifier which helped to get our pH back in line. A shout out to Public Works for inclosing the area around the biosolds roll off. We can now press biosolids year round without worrying about equipment freezing up. Overall, we had little issues with the operations of the plant.

### **WORKSHOPS & MEETINGS**

We continue to attend meetings and workshops that provide contact hours and education along with OEPA updates to keep our licenses current as required by the City and OEPA.

#### Message from the Chief

It is my pleasure to present you the 2020 Wauseon Fire Department annual report as a summary of the outstanding and dedicated work our department completed during the pandemic that shook the nation. The information contained in this report is a reflection of the combined efforts of the outstanding men and women of our department. We are proud of the services we provide and want to share with you how well we overcame what most would consider a gride lock due to the pandemic. Our performance last year provided us with some vital statistics and major accomplishments within the City of Wauseon that helped us achieve our mission. As Chief, I am truly proud of our members' accomplishments, and I applaud their outstanding performance this past year.

Wauseon constantly strives to maintain its high levels of service and to ensure the best quality of life for all of its citizens. Wauseon Fire

Department is a key component in the City's efforts to provide a safe community for its residents, visitors, and businesses. Our members accept and embrace their roles, and we continue to prepare for not only the day-to-day challenges, but the ones on the horizon that we will be faced with in the future.

As the Wauseon Fire Department continues to move forward during this pandemic, we have implemented changes to the station and to our responses. Along with our deconning stations, we have put together the appropriate measure so our department is keeping all those who come into contact with us as safe as possible. We have had to work with our hospital, health department, and sheriff's department on a closer scale to get specifications in place when it comes to Covid-19. Protecting the individuals within my department and those who come into contact with us is our key mission during this pandemic.

It is my distinct honor and privilege to lead a progressive, customer-driven, Fire/ EMS department that constantly works hard to meet the fire and rescue needs of its community. I encourage you to contact us if you have any questions or if you have suggestions to improve our services to you and the community. I also invite you to visit the Wauseon Fire Department website (www.wauseonfire.com) to find more information about our department and how we help contribute to this vibrant, progressive, responsible, and safe community for all who call Wauseon home.

Respectfully submitted,

Fire Chief Richard Sluder

#### Vision

As a firefighter and member of the Wauseon Fire Department, my fundamental duty is to serve the community; to safeguard and preserve life and property against the elements of fire and disaster; and maintain a proficiency in the art and science of fire engineering.

#### Mission

The Wauseon Fire Department will embrace the opportunity of every new day to learn, train, and prepare for the privilege of serving mankind: honoring our commitment to always be ready when the people really need us.

### Core Values

#### INTEGRITY - THE WAUSEON FIRE DEPARTMENT DEMONSTRATES INTEGRITY BY:

- Being loyal to the department's vision and mission
- Conducting ourselves with a high level of morality
- Conducting ourselves with the utmost honesty at all times
- Showing self-respect and respect for others
- Taking responsibility for our actions

## PROFESSIONALISM — THE WAUSEON FIRE DEPARTMENT IS PROFESSIONAL IN ALL ITS ACTIONS RELATED TO:

- Appearance and behavior
- Respectful attitude
- Concern and compassion for people
- Training, preparedness, readiness and response

## **COMPASSION** – THE WAUSEON FIRE DEPARTMENT DEMONSTRATES COMPASSION TO ITS MEMBERS AND THE COMMUNITY IT SERVES BY:

- Reconciling difference with an open mind
- Showing kindness and concern to our employees and citizens
- Being sympathetic and displaying empathy for others
- Giving consideration to all facts surrounding issues

## **UNITY** – THE WAUSEON FIRE DEPARTMENT RECOGNIZES THAT EVERY EMPLOYEE IS A VALUED MEMBER AND PARTNER IN THE FIRE DEPARTMENT FAMILY BY:

- Supporting a team-oriented approach to issues
- Valuing input from all members of the department
- Communicating openly and honestly, at all levels, without fear of reprisals
- Creating a consistent, trusting, pro-active work environment that promotes feelings of security in all members of the department

#### **HONOR - THE WAUSEON FIRE DEPARTMENT DEMONSTRATES HONOR BY:**

- Being respectful of others at all times
- Ensuring actions are done with the goal of the department having the highest level of reputation
- Conducting ourselves so that we are admired by the community
- Acting with honesty, integrity and fairness at all times

2020: A Year of Progress:

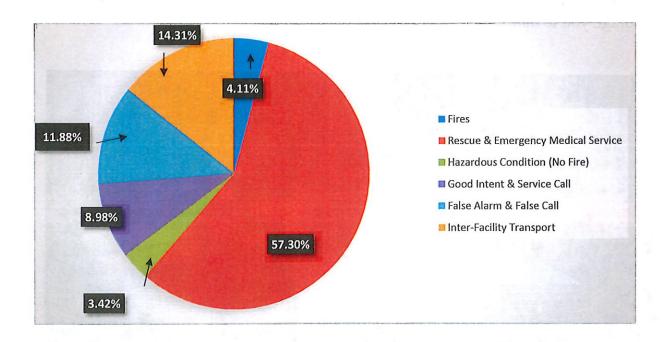

2020 proved to be another year of significant progress for the Wauseon Fire Department. In 2020 the Wauseon Fire Department integrated a computerized evaluations software called My Evaluations – Target Solutions. My Evaluations allows us to streamline our organization's completion of annual and mid evaluations, while also allowing us to streamline all our administration paperwork which is more efficient. It gives us the capability to track all evaluations and any administration paperwork that our department needs to have on file. We also implemented a new EMS medication and supply digital software making it easier to track expiration dates and quantities for better alerting when replacement is needed. In the final push at the end of the year our Executive Assistant worked closely with Code3Creative to redesign our department website making it more clear, concise and user friendly. We encourage you to take a look if you haven't already!

#### RUNS YEAR TO DATE 2020 TOTAL- 1,726

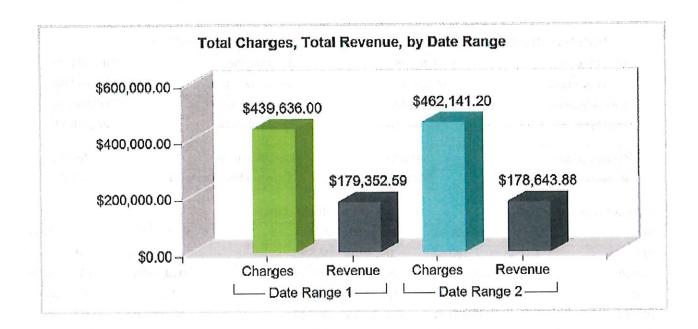

| INCIDENT TYPE                      | #INCIDENTS | % of TOTAL |
|------------------------------------|------------|------------|
| Fires                              | 71         | 4.11%      |
| Rescue & Emergency Medical Service | 989        | 57.30%     |
| Hazardous Condition (No Fire)      | 59         | 3.42%      |
| Good Intent & Service Call         | 155        | 8.98%      |
| False Alarm & False Call           | 205        | 11.88%     |
| Inter-Facility Transports          | 247        | 14.31%     |
| TOTAL                              | 1,726      | 100.00%    |

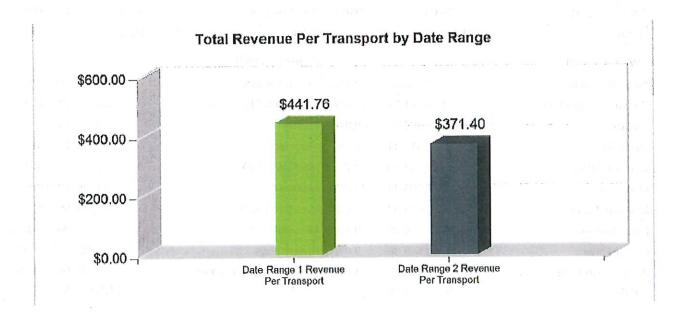

The Wauseon Fire Department proudly responded to more than 1,726 calls for emergency medical services in 2020, approximately 100 less calls for service than the previous year due to the Covid-19 pandemic that hit our nation. Members also proactively completed nearly 4,200 collective hours of training in 2020 of which 709 hours were completed in house. The Wauseon Fire Department continues to evaluate the needs of the community and strives to shape the Emergency Response Model to meet the community's needs in a timely and fiscally responsible manner.
